

Flange Mount

Flange Mount models are designed to connect to existing flanged connections.

Available in ANSI Class 150, 300, 600 or 900/1500 flanges.

Extension Pole

Aluminum extensions can be attached to enable detection of the pig's passage on buried pipelines.

All pressure sealing components remain below the extension module.

Available in lengths 2 to 10'.

Extension poles can be used with any Apache pigPRO™
